

SIGNAL INTELLIGENCE REPORT

SIGNAL - The Internet's Early Warning System | orchestrated by n8n

Topic: orbital data center feasibility
Run ID: b4c46fb7-0d5c-4ebc-90c5-ca4482e5eb3d
Signal ID: a9d7d65c-e4ac-41a1-9dc9-9ce25278ac25
Generated \(\UTC\): 2026-08-22T06:39:07.405Z
Input mode: natural \(\DEMO SIMULATION\)
Analysis path: full

1. VERDICT & SCORE

Signal score: 61/100 \(\EMERGING\)
Confidence: 65%
Leading hypothesis: orbital data center feasibility ecosystem entering a genuine acceleration phase

2. SIGNAL DNA

source_quality.... 60/100
independence..... 100/100
acceleration..... 50/100
novelty..... 48/100
cross_domain..... 44/100
contradiction..... 0/100

3. TEMPORAL ANALYSIS

Velocity vs baseline: 0%
Re-emergence: no match with dismissed history

4. SOURCE FORENSICS

Articles found: 6
Underlying events collapsed: 6
Independent sources: 6
Unique domains: 6
Duplicates removed: 0

5. SENSOR SWEEP

news..... AVAILABLE \(\2 items\)
research..... AVAILABLE \(\1 items\)
github..... AVAILABLE \(\1 items\)
community..... AVAILABLE \(\1 items\)
policy..... AVAILABLE \(\1 items\)

6. RED TEAM

Adversarial searches executed: 5
Contradictions surfaced: 0

7. COMPETING HYPOTHESES

#1 [LEADING] prior 58% -> posterior 58%

orbital data center feasibility ecosystem entering a genuine acceleration phase

#2 [CANDIDATE] prior 34% -> posterior 34%

Short-term spike; cyclical or seasonal noise

#3 [CANDIDATE] prior 26% -> posterior 26%

Coordinated publicity inflating perceived momentum

8. INVALIDATORS \ (what would kill this signal)

[] Coverage volume for "orbital data center feasibility" returns to historical baseline within one week

[] Independent outlets stop adding NEW reporting \ (only syndicated copies appear)

[] No independent confirmation emerges within the time horizon

[] Key named entities issue denials or retractions

[] Downstream indicators \ (hiring/GitHub/procurement) flatten or reverse

9. EXTRACTED CLAIMS

C1. [publishes_research] SSM

SSM hybrid inference benchmark beats transformers at long context

C2. [launches] Chipmaker

Chipmaker launches SSM accelerator block

10. ENTITY GRAPH

Entities / relationships: 4 entities, 2 relationships

ssm --appears_in--> ssm hybrid inference benchmark beats transformers at long context \ (w=0.25)

chipmaker --announces--> chipmaker launches ssm accelerator block \ (w=0.25)

11. PIPELINE TIMELINE

[INPUT] natural request received

[THINK] strategist via openrouter: 6 queries, 3 counter-queries

[SENSE] 5 radar channels activated

[INVESTIGATE] 6 articles, 0 deep-crawled

[CONNECT] 4 entities resolved, 2 relationships mapped

[DETECT CHANGE] velocity 0% vs baseline

[FORM HYPOTHESES] 3 competing hypotheses

[RED TEAM] 5 adversarial searches, 0 contradictions found

[VERIFY] forensics collapsed 6 articles -> 6 events

[SCORE] deterministic score 61/100 EMERGING

[REMEMBER] persisted to PostgreSQL memory

[HUMAN LOOP] notification \ (demo) dispatched; review requested

12. RESOURCES EXAMINED \ (6)

[1] The Information \ (news, 2026-08-21)

Startups pivot from transformer-only stacks to hybrid SSM architectures

demo://37e3ac8a

[2] arXiv \ (research, 2026-08-20)

SSM hybrid inference benchmark beats transformers at long context

demo://8842b013

[3] GitHub Trending \ (github, 2026-08-21)

Hybrid-ssm-inference library crosses 8k stars

demo://12d5738a

[4] SemiAnalysis \(\news, 2026-08-20\)

Chipmaker launches SSM accelerator block
